MediaAerea

Fullstack Developer

Jul. 2025 – Present

On-Site

Ticketing & Production Systems

- Maintained and extended a **distributed multi-tenant ticketing platform**, delivering new features, troubleshooting incidents, and collaborating with DevOps.
- Built and deployed **real-time analytics dashboards** on Django-based receiving systems to improve visibility into workload, productivity, and ticket performance.
- Reduced **average ticket resolution time by 34%** and **closure time by 35%** through data-driven operational insights.
- Increased tickets resolved **before their promised date by 118%** and **before their deadline by 64%**.

Legacy Migration & Data Engineering

- Participated in the migration of a **legacy JavaScript/HTML system to NestJS**, redesigning backend components around a more maintainable architecture.
- Designed and implemented **Python data pipelines** using Pandas, NumPy, Matplotlib, and SQLAlchemy for automated reporting, data processing, and visualization.
- Translated undocumented business rules from the legacy system into new backend workflows while preserving existing behavior.

E-Commerce Platforms

- Contributed to both the **administrative and customer-facing sides of a custom e-commerce platform**, primarily working on report generation, data pipelines, authentication, and customer service chat services.
- Designed backend services connecting customer interactions with administrative workflows while maintaining **consistent data flow across system boundaries**.
- Worked within structured software development and documentation processes introduced as the company pursued **CMMI Level 5 appraisal**.

Gila Software

AI Developer Intern

Feb. 2025 – May. 2025

Remote

- Designed and built a **multi-tenant AI communication assistant** using **Python and Hugging Face** libraries.
- Developed **dynamic data pipelines** for query processing using semantic filter extraction and **MongoDB**.
- Orchestrated AI module workflows via middleware, using **intent detection** to route queries to appropriate
