WORK EXPERIENCE

MediaAerea

Fullstack Developer

Jul. 2025 – Present

On-Site

- Contributed to a **distributed multi-tenant ticketing system** composed of a centralized ticket generator and multiple receiving platforms.
- Built and deployed **real-time analytics dashboards** on Django-based receiving systems, improving operational visibility and decision-making.
- Reduced **average ticket resolution time by 34%** and **closure time by 35%** through data-driven insights.
- Improved SLA compliance:
 - **+118%** increase in tickets resolved before promised date
 - **+64%** increase in tickets resolved before deadline
- Participated in a **backend migration from a legacy JS/HTML system to NestJS**, focusing on **report generation and data processing workflows**.
- Designed and implemented **data pipelines in Python** using **Pandas, NumPy, Matplotlib, and SQLAlchemy** for automated reporting and visualization.
- Maintained and extended system functionality across multiple services, delivering new features and resolving production issues

Gila Software

AI Developer Intern

Feb. 2025 – May. 2025

Remote

- Designed and built a **multi-tenant AI communication assistant** using **Python and Hugging Face** libraries.
- Developed **dynamic data pipelines** for query processing using semantic filter extraction and **MongoDB**.
- Orchestrated AI module workflows via middleware, using **intent detection** to route queries to appropriate

EDUCATION

Instituto Tecnológico de Sonora

B.S. Software Engineering

Aug 2021 - May 2025

Obregon, Sonora

TECHNOLOGIES, SKILLS & INTERESTS

- **Technologies:** Java, Python, JavaScript, TypeScript, Golang, MySQL, PostgreSQL, MongoDB, NestJS, Hugging Face, LangGraph, LangChain, Django, Docker, RabbitMQ, Redis
- **Skills:**
 - **Backend & Architecture:** REST APIs, microservices, multi-tenant systems, hexagonal architecture
 - **Data & AI:** Data pipelines, Natural Language Processing, LLM integration
- **Interests:** Music composition, photography, Data Science & AI
